

YWCA General Operations Guidelines

In the interest of promoting safe public health practices, the YWCA is taking recommended actions to maintain a healthy community.

- Face coverings required for adults and children age 5 and older.
- Maintain six feet of social distancing.
- Hand washing/sanitizing is encouraged upon entering a different area of the building.
- To maintain social distance and capacity limits, online registration is required for Lap/Adult/Open Swim and for Adult Group Fitness Classes. Please visit our [website's Schedules page](#) for reservation information.
- Drinking fountains are unavailable, so please bring your own water bottle.
- Use a barrier between your skin and locker room benches. Shower shoes or flip-flops required. Bring your own towel.
- Sanitize all fitness equipment before and after each use, as well as your locker area, hand dryers, and suit spinner. Members will place pool equipment in the “to be sanitized” area after each use.
- Members are required to sign a Health Screen Agreement upon their first visit or return to the YWCA.
- Staff will check and record their personal temperature upon entering.

Thank you for your cooperation and patience. If you have specific concerns, please contact any department head or Member Services.
